Healing a Hurting World  
Soulager les souffrances du monde

Zerf Productions( Dr. Wilhelmina Fredericks  
Montreal, Quebec, 2W8 H4A

Dear Partners,

The first week of January 2009, HPIC celebrated a milestone. Dr. Reinhard Friesen of Peterborough travelled to Honduras with a team of healthcare professionals and the 5,000th Physician Travel Pack (PTP) of Health Partners International of Canada's (HPIC) history. You have played a significant role in this achievement.

The PTP that you carried is among those 5,000 that have been shipped around the world. You stand with Dr. Friesen in a very special group of people -- healthcare professionals and humanitarians who have given of your time, skills, finances and energy because you care about the basic needs of others. You care that millions of people around the world are suffering and dying from preventable and treatable illnesses because they cannot find or cannot afford medicine. You care about the community you visited. You care about the local people you worked with. You care about the patients you treated.

We want to thank you, and let you know that we care. We are grateful for each of you. Because of our partnership, thousands of people have been treated and healed. We look forward to opportunities to work with you again in the future.

Warm regards,

Nancy McGuire  
Director, Physician Programs
