\$2 Million dollars over 20 years

At the Annual General Meeting February 25th 2009, Wilhelmina Fredericks, reported over the The past 20 years, the people, cultural communities Universities and schools and businesses of Montreal Donated over 2 million dollars, goods and services to the People of Montreal and Africa. We thank you for Your generous contribution. You have uphold your Commitment of humanitarian initiatives

the lives of many.

Zerf productions made a commitment to drill a water Well for the children infected with HIV and Aids at the Kikuhe We again Asking for your help of donations

During my September visit, our team observed they had no clean running water . The children walk two miles from the orphanage for water, by the time they get to the two-room orphanage; there is no more water in the bucket The water well is important and urgent for the survival of the children. The association of the water problem with the water borne diseases and particularly to the mothers children living with HIV and AIDS. The women who are the immediate provider home based health services are constrained with time for working several kilometers in search of water at the cost of leaving their kids and the sick loved without care. Water will save

. If you join us we will dig a well to provide the children with water. The children, eat porridge twice day, and need clean water to drink .As human beings we must uphold our commitment to help the children of Africa. Join us and let these children live Make a donation for drilling of a water well for our children
